

5 TRIN TIL BRUG AF NOTEBOOKLM

HVAD ER NOTEBOOKLM?

NotebookLM er en smart forsknings- og skriveassistent udviklet af Google. Den hjælper dig med at lære og kommunikere ud fra dit eget materiale.

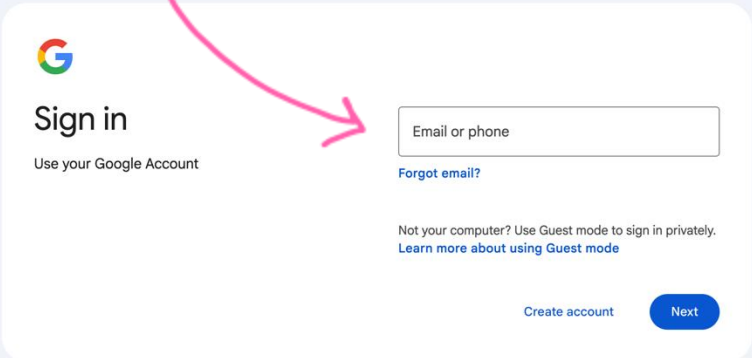

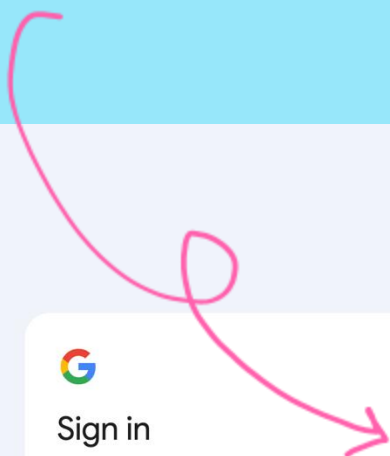

Du kan uploade dokumenter, PDF'er, links eller filer fra Google Drev, og NotebookLM opsummerer dem og besvarer spørgsmål med henvisning til dine kilder.

Du kan også generere studieguides, briefs eller endda podcast-lignende lydgennemgange – alt sammen baseret på de materialer, du har uploadet.

STEP 1: LOG IN

Gå til notebooklm.google.com og login in med din google-konto for at få adgang...

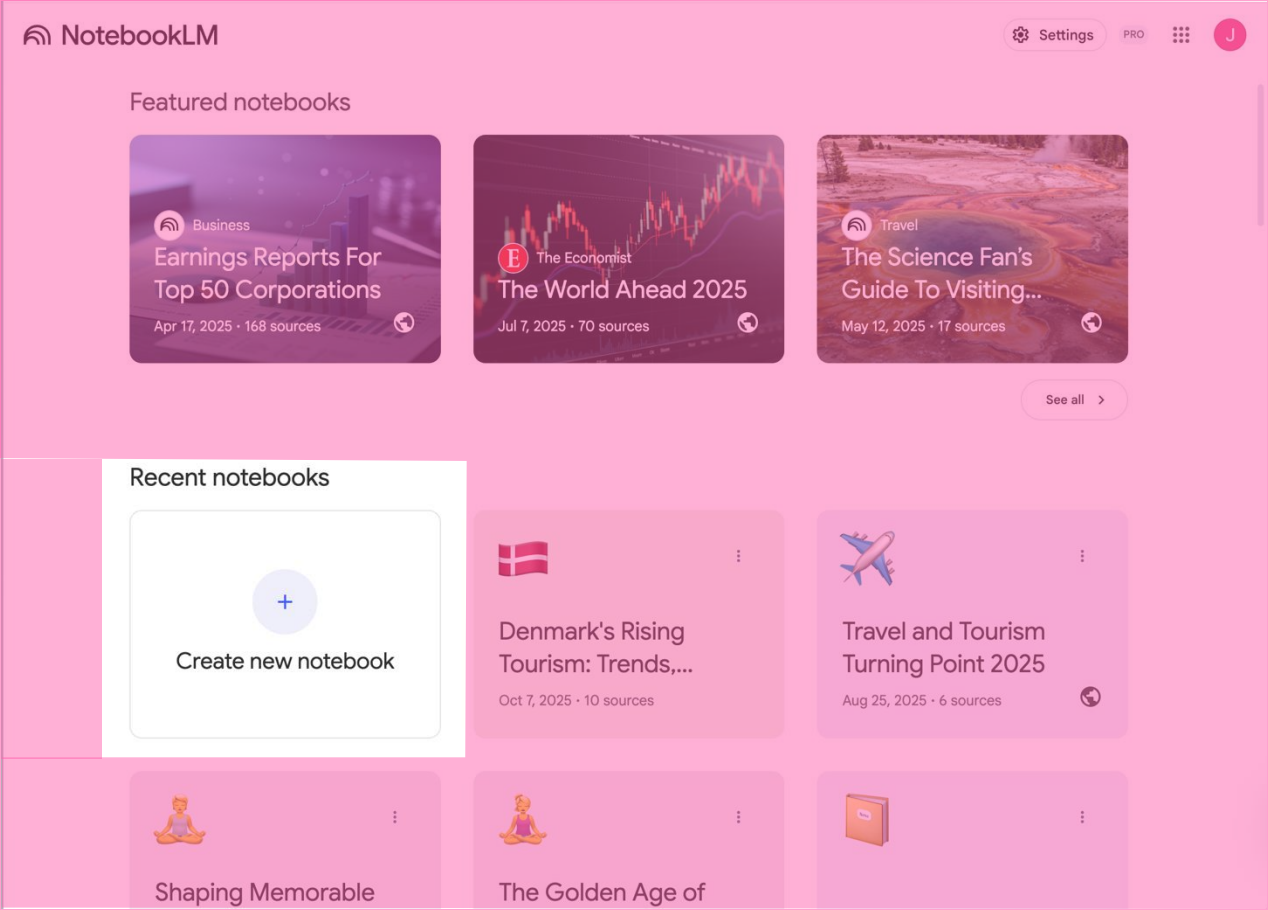

The screenshot shows the Google Sign in interface. At the top left is the Google 'G' logo. Below it, the text 'Sign in' is displayed in a large font, followed by 'Use your Google Account' in a smaller font. To the right of this text is a text input field labeled 'Email or phone'. Below the input field is a link that says 'Forgot email?'. Further down, there is a line of text: 'Not your computer? Use Guest mode to sign in privately.' followed by a link 'Learn more about using Guest mode'. At the bottom right of the sign-in area are two buttons: 'Create account' and a blue 'Next' button.

STEP 3: UPLOAD MATERIALE

Her kan du **uploade de filer**, du vil lære af og kommunikere med. NotebookLM understøtter en lang række filtyper, herunder PDF'er, tekstfiler, lydfiler, weblinks, YouTube-videoer og Google-filer som Docs og Slides.

Hvis du vil lære om et nyt emne, men ikke har noget materiale, kan du også klikke på **“Discover sources”** og bede AI'en om at anbefale relevant materiale til dig.

STEP 4: KLAR TIL AT GÅ I GANG!

I chat-panelet kan du stille specifikke spørgsmål, og NotebookLM vil svare med udgangspunkt i dine uploadede materialer og angive kilderne.

Denmark's Rising Tourism: Trends, Growth, and 2025 Experiences

10 sources

The collected sources provide a comprehensive look at the booming tourism market in Northern Europe, particularly focusing on Denmark and the broader Scandinavian region. The first set of excerpts details twelve captivating experiences and infrastructure upgrades launching ranging from new art museums and culinary events to the celebration of Hans Christian Andersen, the opening of new transport links and resorts. The second set explains that tourism is rising across Northern Europe, Sweden, and Finland, driven by a global shift toward sustainability, and outdoor nature experiences; the third set shows strong positive sentiment scores and increased hotel bookings for Finland. The data further suggests that while nature visitors express concerns over accessibility and costs, there are areas for destination improvement.

Denmark's Rising Tourism: Trends, Growth, and 2025 Experiences

10 sources

The collected sources provide a comprehensive look at the **booming tourism market in Northern Europe**, particularly focusing on Denmark and the broader Scandinavian region. The first set of excerpts details **twelve captivating experiences and infrastructure upgrades launching in Denmark in 2025**, ranging from new art museums and culinary events like the MICHELIN Guide ceremony, to the celebration of Hans Christian Andersen's anniversary and the opening of new transport links and resorts. The second, more analytical source explains that tourism is rising across Northern Europe, including Norway, Sweden, and Finland, driven by a global shift toward **"coolcations," sustainability, and outdoor nature experiences**; this trend is confirmed by strong positive sentiment scores and increased hotel rates, especially in winter for Finland. The data further suggests that while nature is the primary draw, visitors express concerns over **accessibility and cost** at attractions, offering key areas for destination improvement.
