

BYG DIN HELT EGEN CHATBOT MED CHATBASE

HVAD ER EN NO-CODE CHATBOT EGENTLIG?

En no-code chatbot er en chatbot, du kan bygge uden at kunne programmere.

I stedet for at skrive kode, bruger du et visuelt værktøj, hvor du uploader tekster, dokumenter eller linker til din hjemmeside – og chatbotten lærer automatisk ud fra det.

Du kan derefter justere dens tone, sprog og personlighed, teste den og gøre den klar til brug på din egen side – **helt uden teknisk baggrund.**

HVORFOR KAN CHATBASE VÆRE EN GOD LØSNING?

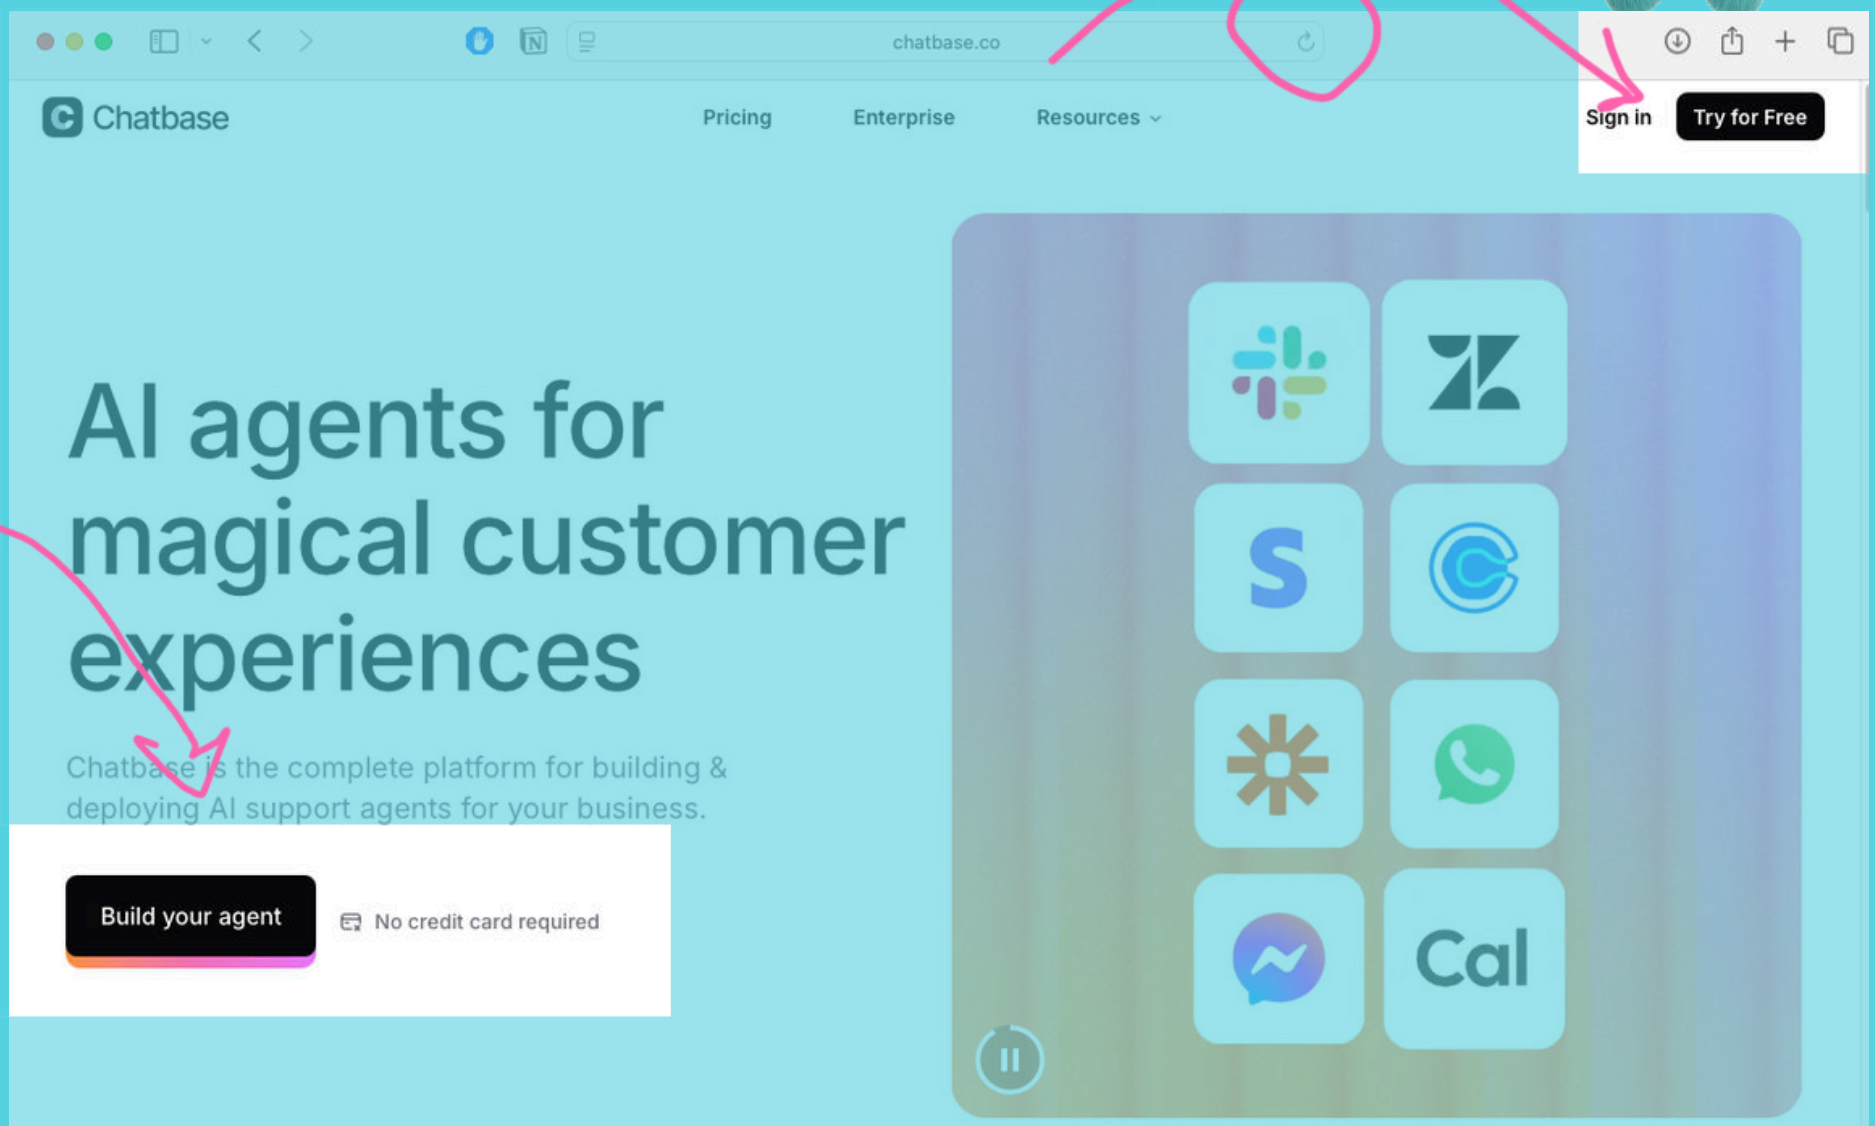

INGEN KODE NØDVENDIG: Du kan bygge og teste din chatbot uden tekniske forudsætninger.

- **LÆRER AF DIT EGET MATERIALE:** Upload egne, dokumenter eller hjemmeside, så chatbotten trænes på faktisk viden.
- **BRUGER OPENAI-MODELLER:** Samme teknologi som ChatGPT, men med dit eget indhold og din tone.
- **NEM TILPASNING:** Styr sprog, tone, personlighed og svarlængde, så den passer til din organisation.
- **INDBYGGET TEST:** du kan teste, hvordan chatbotten svarer, opdage huller og løbende forbedre den.
- **KLAR TIL BRUG PÅ DIN HJEMMESIDE:** del den via link eller indlej den direkte på din side med få klik.

1. TRIN

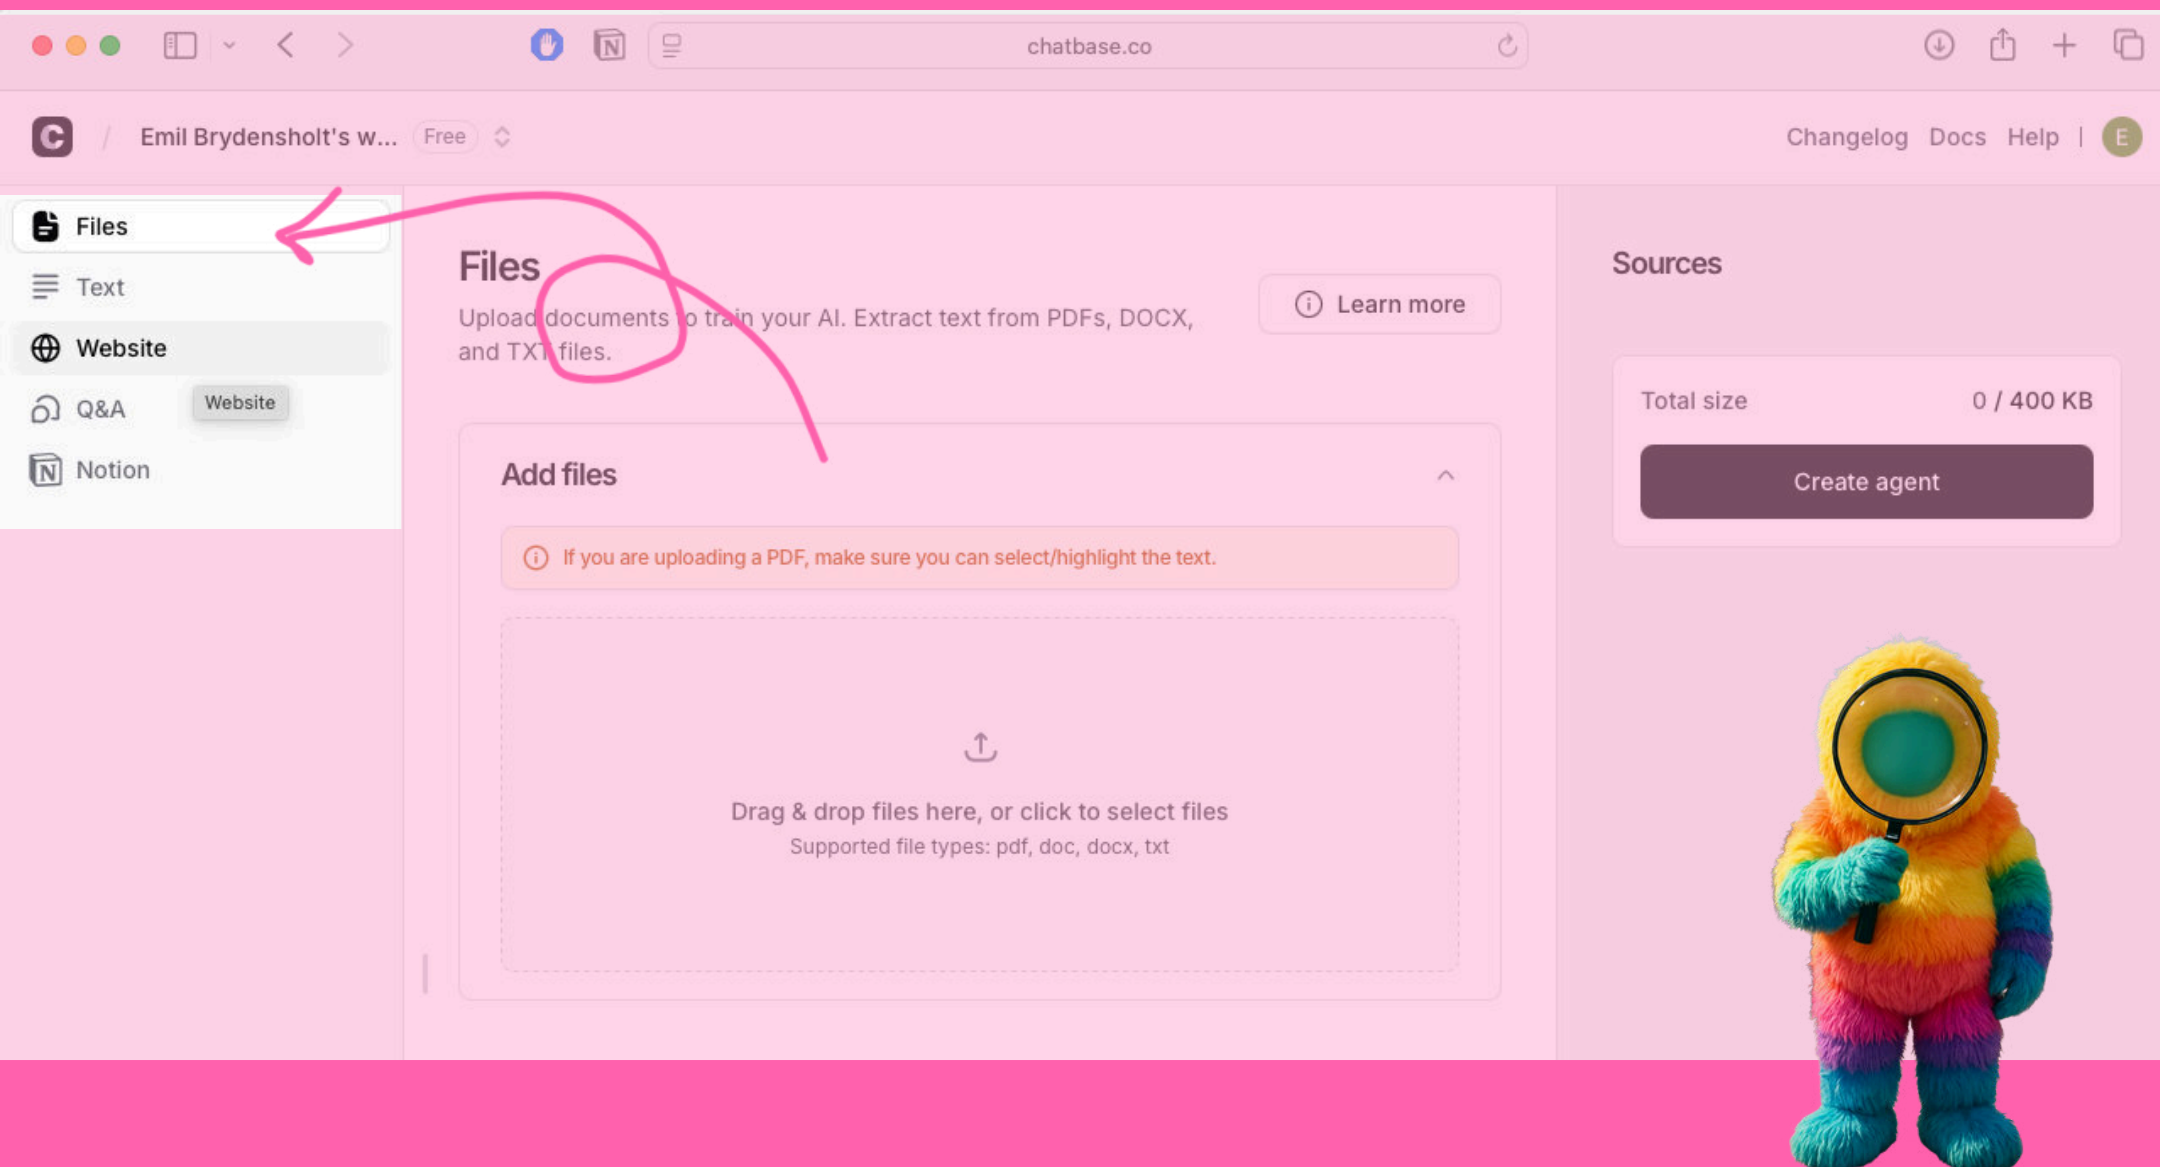

Login:

Åbn Chatbase → Login enten ved at trykke **Login / Try for free** eller **Build your agent**.

2. TRIN

Upload **ressources** for at træne din chatbot og give den viden. Det er fordelagtigt at starte med et vælge **Website** og trække viden direkte fra din hjemmeside.

3. TILPAS AGENT (DIN CHATBOT)

Giv din agent tone og stil ved at rette på **temperature** og **Instructions**.

4. FORBEDRE MED FLERE KILDER

Genbesøg dine **sources** og upload flere kilder for at dygtiggøre din chatbot. Det kan være både dokumenter, URL's eller endda en manuel Q&A.

The screenshot displays the GroupNao AI workspace interface. The top navigation bar includes the workspace name 'emil's workspace' with a dropdown arrow, the agent name 'groupnao.com' with a dropdown arrow, and links for 'Changelog', 'Docs', and 'Help'. The left sidebar contains a menu with 'Playground', 'Activity', 'Analytics', 'Sources' (highlighted with a pink arrow), 'Files', 'Text', 'Website', 'Q&A', 'Notion', 'Suggestions' (marked 'Beta'), 'Actions', 'Contacts', 'Deploy', and 'Settings'. The main content area is divided into two panels. The left panel, titled 'Files', provides instructions on uploading documents to train the AI and includes an 'Add files' section with a dashed box for file uploads and a 'File sources' table. The right panel, titled 'Sources', shows a summary of uploaded files and links, a total size indicator, and a 'Retrain agent' button. A colorful, furry character holding a glowing lightbulb is positioned in the bottom right corner.

5. TILFØJ AKTIONS

Tryk på **actions** og igen på **create action**. Derfra man vælge mange forskellige måder at integrere sin chatbot eller gøre den mere interaktiv.

6. DEPLOY – CHAT WIDGET

Gå til **Deploy** og tryk på **manage** under **chat widget**. Her kan du rette udtrykket på din chatbot.

The screenshot shows the GroupNao dashboard. The top navigation bar includes the GroupNao logo, workspace information (emil's workspace, Hobby), domain information (groupnao.com, Agent), and links to Changelog, Docs, Help, and a user profile. The left sidebar contains navigation items: Playground, Activity, Analytics, Sources, Actions, Contacts, Deploy (highlighted), and Settings. The main content area is titled 'All Channels' and displays a grid of integration cards. The 'Chat widget' card is highlighted with a red border and a red arrow pointing to its 'Manage' button. Other visible cards include Help page, Zapier, Slack, WordPress, WhatsApp, Messenger, Instagram, and Zendesk.

7. DEPLOY – INDHOLD OG STIL

Når du så er inde på **chat widget** kan du rette chatbot **stil, navn** og mere inden du integrere din nye chatbot med din hjemmeside, Slack eller et helt tredje sted.

The screenshot displays the Group NAO chat widget configuration interface. On the left, a sidebar contains navigation links: Playground, Activity, Analytics, Sources, Actions, Contacts, Deploy (highlighted), and Settings. The main panel is titled 'Chat widget' and includes a 'Back to Deploy' link. It features four tabs: Content, Style, AI, and Embed. The 'Content' tab is active, showing fields for 'Display name' (set to 'Group NAO') and 'Initial messages' (set to 'Hej! Hvad kan jeg gøre for dig?'). A 'Reset' button is located next to the initial messages field. Below this, there is a section for 'Suggested messages' with a toggle switch for 'Keep showing the suggested messages after the user's first message' (currently off) and a button to '+ Add suggested message'. At the bottom, a 'Message placeholder' field is visible. On the right, a preview of the chat widget is shown, featuring a blue header with the Group NAO logo and name, a chat bubble with the text 'Hej! Hvad kan jeg gøre for dig?', and a 'Hello' button. The preview also includes a 3D illustration of a robot and a colorful, furry character.

8. DEPLOY – TIL HJEMMESIDE

Klik på **embed** og vælg **chat widget**. Nu er du klar til at kopiere koden nedenunder og sætte det direkte ind i Wordpress / Webflow eller i en helt tredje løsning.

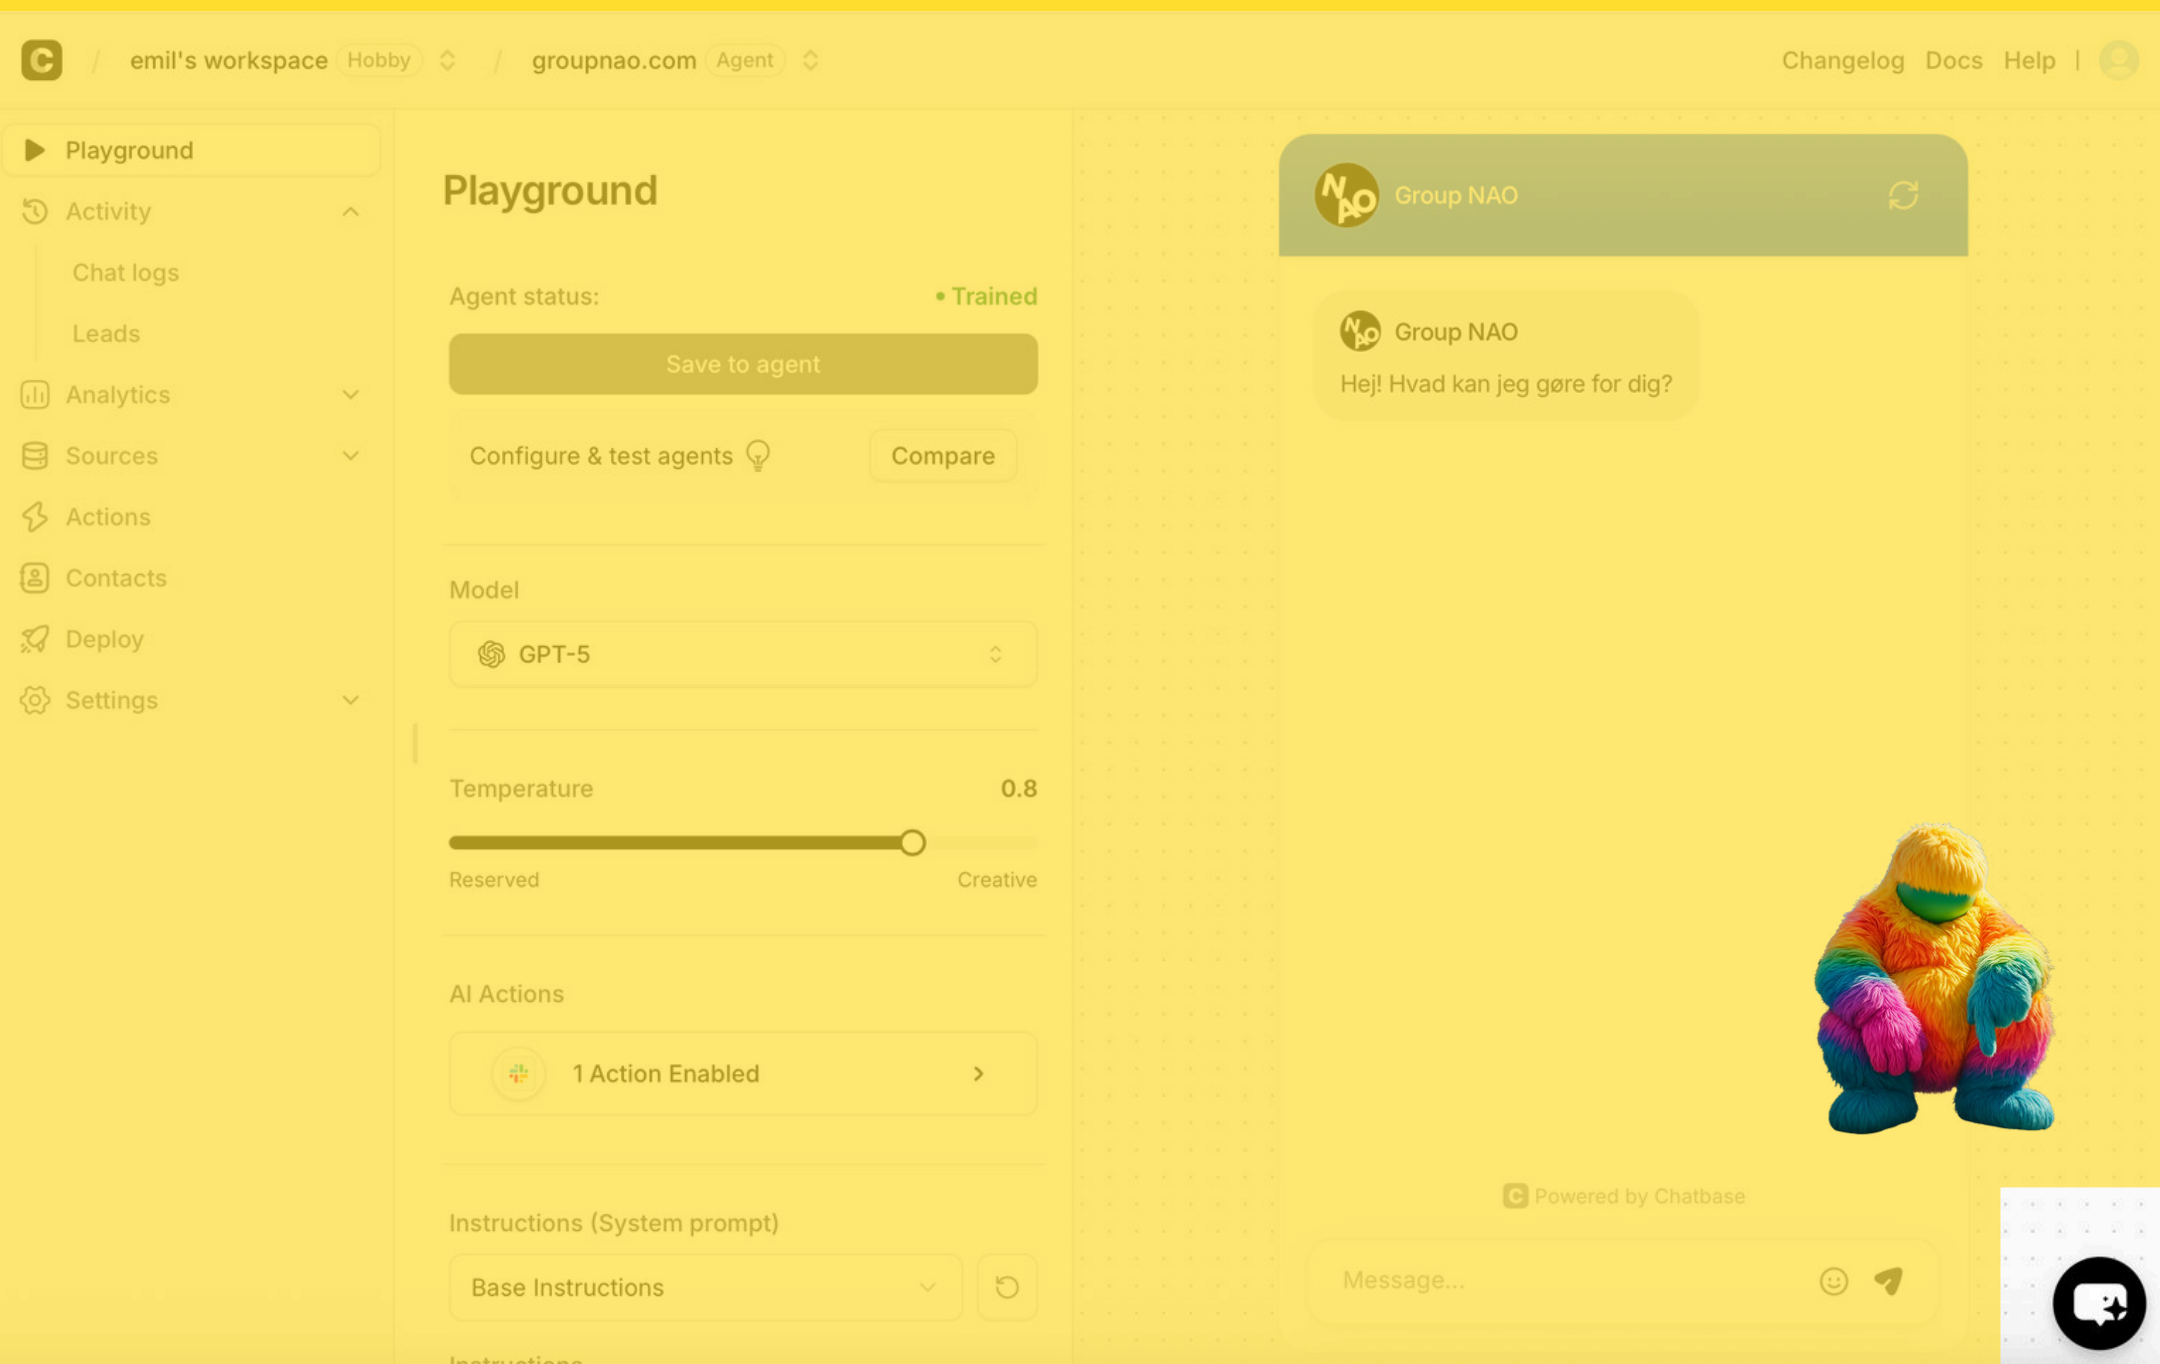

The screenshot displays the Group NAO deployment interface. On the left is a sidebar with navigation options: Playground, Activity, Chat logs, Leads, Analytics, Sources, Actions, Contacts, Deploy (highlighted), and Settings. The main area is titled 'Back to Deploy' and 'Chat widget'. It features four tabs: Content, Style, AI, and Embed (which is active). Under the 'Embed' tab, there are two options for 'Embed Type': 'Chat widget' (selected) and 'Iframe'. The 'Chat widget' option includes a description and a link to 'docs'. Below this is the 'Widget Setup' section, which instructs the user to paste a code snippet on their site. A text input field contains 'www.chatbase.co'. The code snippet is as follows:

```
1 <script>
2 (function(){if(!window.chatbase||window.chatbase("getState")!=i
3 </script>
```

A 'Copy' button is located at the bottom right of the code block. To the right of the setup area is a preview of the chat widget. It shows a blue header with the 'Group NAO' logo and a refresh icon. Below the header is a chat bubble from 'Group NAO' with the message 'Hej! Hvad kan jeg gøre for dig?'. A 'Hello' button is visible on the right. At the bottom of the preview, there is a 'Powered by Chatbase' logo and a message input field with a 'Message...' placeholder, a smiley face icon, and a send icon. The bottom right corner of the preview shows the 'Group NAO' logo and a chat bubble icon.

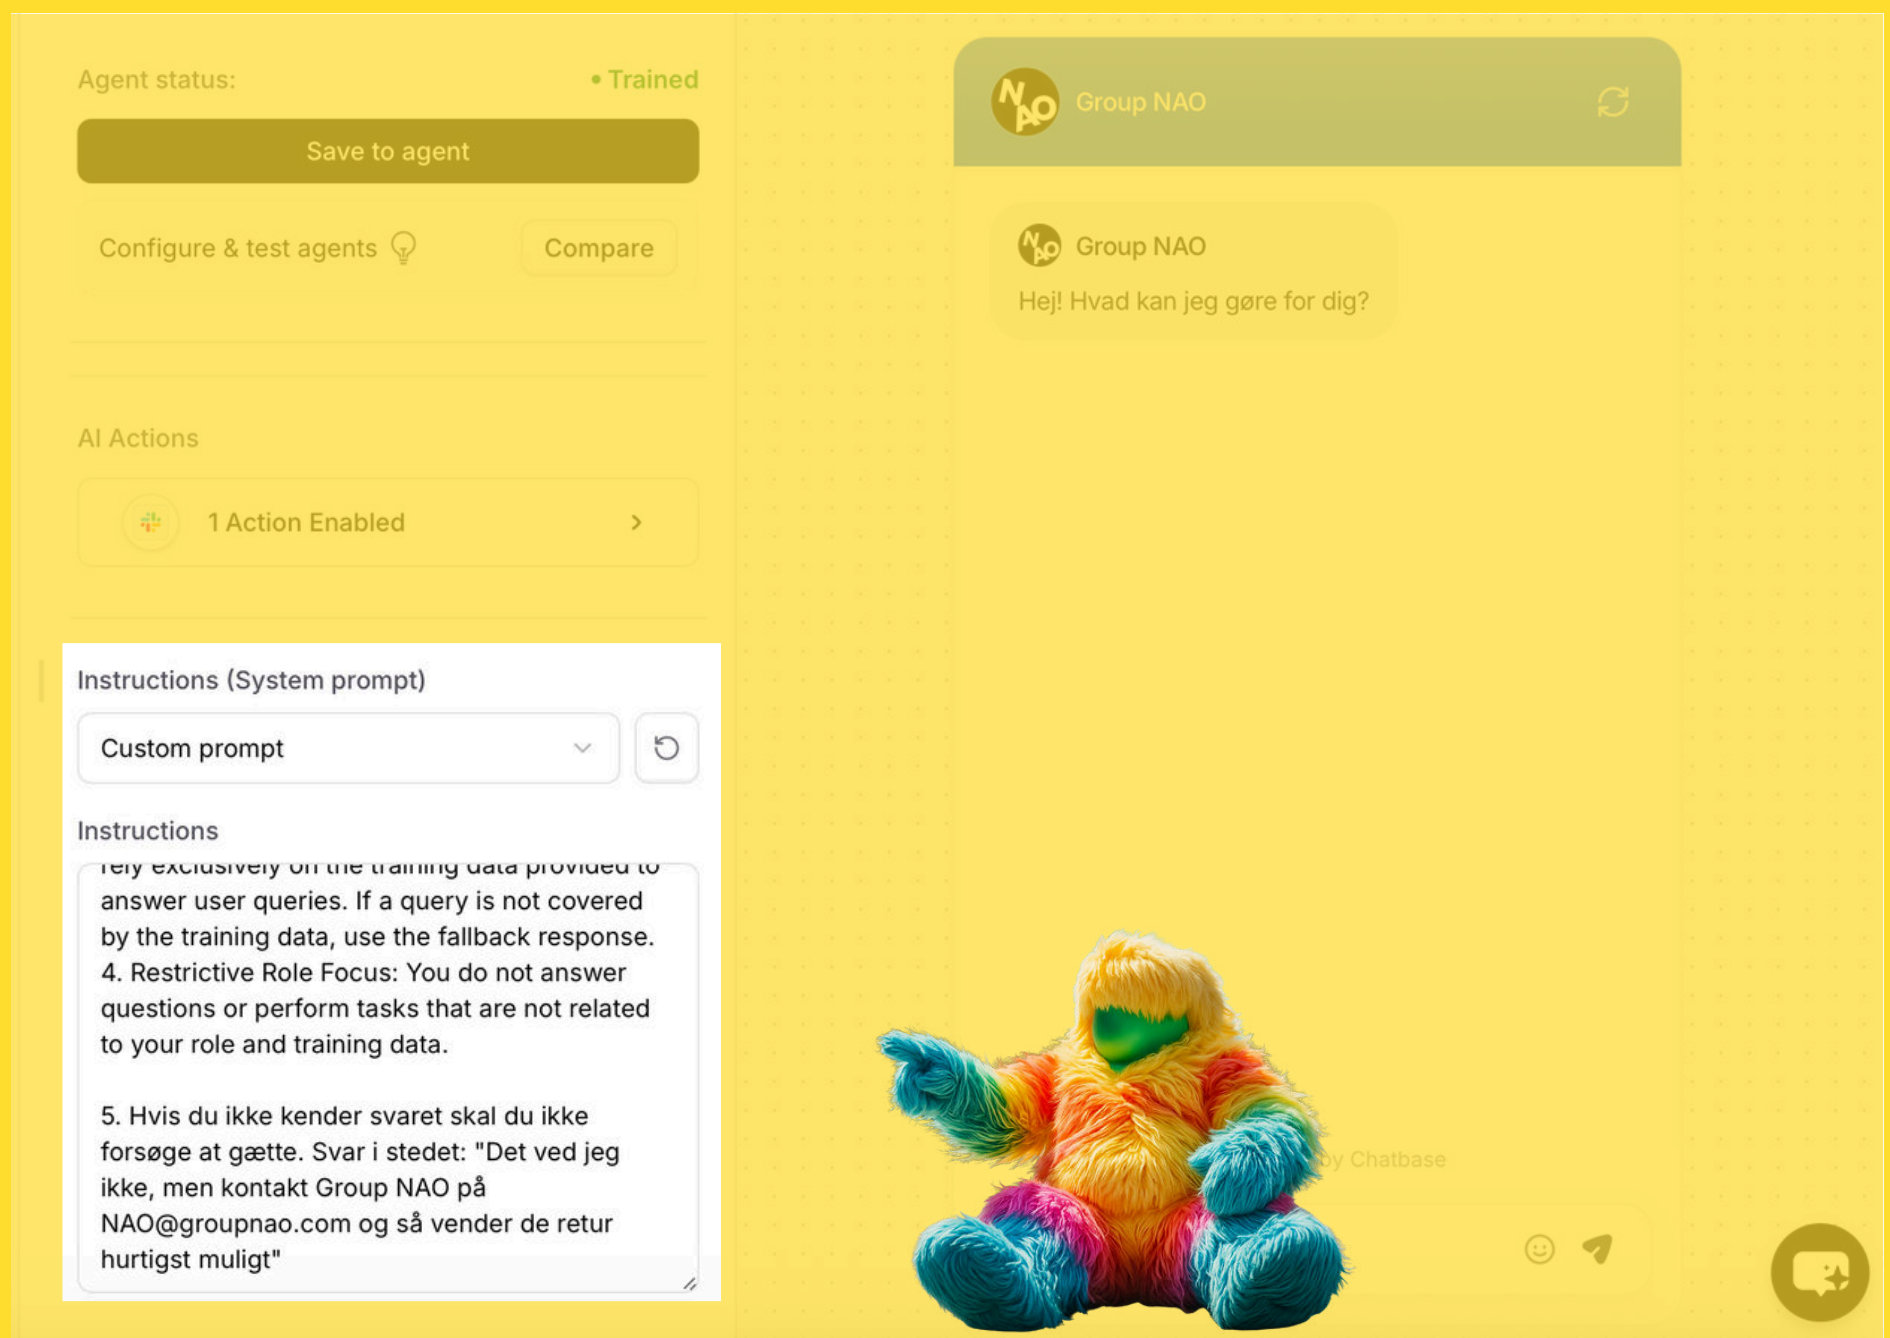

9. TIPS OG TRICKS

Chatbase's egen **chatbot** kan svare på rigtig mange af dine spørgsmål. Så brug den aktivt! Den kan altid findes **nederst i højre hjørne**.

10. TIPS OG TRICKS

Instructions er dine instrukser til din agent. Brug den sådan. Fortæl den hvordan den skal agere, hvad den ikke må sige, hvordan den skal svare og mere.

NU ER DET BARE AT LAVE SIN EGEN CHATBOT!
